EDUCATION

Bachelor of Technology (Computer Science and Engineering) 2022 – 2026
Vardhaman College of Engineering (Affiliated to JNTU Hyderabad) CGPA: 9.48/10

EXPERIENCE

Associate Software Engineer Intern Jun 2026 – Present
AutoRABIT *Hyderabad, India*

- Developed end-to-end integration tests and implemented bug fixes and user stories for the CIJobs and Version Control modules of AutoRABIT's core Automated Release Management (ARM) product
- Optimized server CPU utilization through code-level improvements without altering existing product behavior

Subject Matter Expert (Freelance) Apr 2026 – Present
HackerRank *Remote*

- Developed and validated technical assessments across Backend Development (Java, Spring Boot, Node.js, JavaScript), Machine Learning, Data Science, and Generative AI (Python)
- Designed test cases and evaluation criteria, and benchmarked assessments to ensure they met quality and assessment standards

PROJECTS

Observable Microservices E-commerce | *Spring Boot*, *Microservices*, *PostgreSQL*, *Docker*, *JWT* | GitHub

- Built a distributed e-commerce backend with API Gateway-based JWT security, database-per-service architecture and Dockerized deployment
- Implemented fault-tolerant checkout via Saga orchestration for scalable and resilient backend design

Multi-Domain Support Triage Agent | *Python*, *Groq API*, *Llama 3*, *Sentence Transformers*, *BM25* | GitHub

- Built an AI-powered support triage system that classifies, routes, and generates grounded responses for enterprise support tickets
- Implemented hybrid retrieval using BM25, semantic search, and Reciprocal Rank Fusion with safety routing and automated escalation workflows

Video Conferencing Application | *React*, *Node.js*, *Express.js*, *MongoDB* | GitHub

- Developed a browser-based video conferencing application with HD video/audio calls, screen sharing, waiting rooms, chat, and collaborative whiteboard features
- Engineered WebRTC-based peer-to-peer communication and Socket.io-based signaling to enable low-latency real-time collaboration

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, SQL
Frameworks & Tools: Spring Boot, React, Node.js, Express.js, REST APIs, Docker, Git, GitHub
Databases & Cloud: PostgreSQL, MySQL, MongoDB, Redis, AWS
Core CS: Data Structures, Algorithms, OOP, OS, DBMS, Computer Networks, Software Engineering

OPEN SOURCE CONTRIBUTIONS

- Gemini CLI (bug fix): preserved conversation history when switching authentication methods
- OpenAI Agents JS (Bug fix): fixed missing completion event for streaming agent runs
- MCP Servers (new feature): added MCP roots protocol support to the Everything server

ACHIEVEMENTS

- Ranked Top 1% in Programming in Java, IIT Kharagpur (NPTEL) Apr 2024
- Ranked Top 1% in Cloud Computing & Distributed Systems, IIT Kanpur (NPTEL) Mar 2025
- Ranked Top 100 globally in the HackerRank Orchestrate Hackathon May 2026
- Achieved All India Rank 5075 in GATE CS (Top 2.5%) among 211,000+ candidates 2026
